GEORGE B. MCCLELLAN.

Major General Commanding. WASHINGTON, September 5 - From esteful calculations it is believed that the number of wounded in the recent battles, will not exceed 600 killed; 1,000, and 2,000 prisoners, principally picked up by the enemy while straggling, and who, with the

exception of the officers, have been paroled. Mr. Emory, connected with the Quartermaster's Department, who went down with other clerks to aid in taking care of the wounded, and who left Centreville Wednesday afternoon, says that in conversation with rebel soldiers, he found them with one exception, a Texan, expressing a wish that the war was over, and that they were home again, under the deer old flag. With the officers, however, it was different. On Tuesday Mr. Em-

ory saw a large rebel force going in the direct on of Leesburg. We learn that the rebels had a corps of unarmed men whose duty it was to bear off the dead and wounded as fast as they would fall.

The general hospital at Alexandria contains 1,567 wounded soldiers. Contrabands to the number of two or three hundred arrived here yesterday from the vicinity of Fredericksburg

Large numbers of wounded from the recent battles continue to arrive here. 11 P. M -- The quiet of the city still continues. No one seems bold enough to mountacture any exciting rumor. There is no disagreement whatever in the belief that the rebels are extending their lines into the valley of Varginia, with a view to cross into Maryland.

In front of our army to day, siz or eight miles distant from our most advanced outposts, clouds of dust and other appearances indicated activity among the enemy. The sound of cannon for a short time seems to confirm this. Whatever may be the fact, no danger whatever has resulted. It appears from a private

letter that our troops have been withdrawn from Arquia Creek, if not altogether at least in part. The stores have been placed beyond the probability of falling into the hands of the enemy. Five or six gunbouts were at last accounts lying The rebels do not occupy Frederick-burg with
